## Adult Education Addressing Today's Challenges

Project Number:  
2022-1-DE02-KA220-ADU-000089906

# The Role of Adult Education

Adult education serves as a cornerstone in the ATTACH project, empowering individuals beyond traditional academic settings. It plays a pivotal role in enhancing professional standards among educators, thereby enabling them to inspire and engage adult and senior learners.

By fostering innovative educational approaches tailored to diverse learner needs, adult education in ATTACH cultivates an environment where lifelong learning thrives. This approach not only enriches personal growth but also promotes active citizenship and community involvement among adults and seniors, contributing to a more inclusive and knowledgeable society overall.

## Our Vision

Through our work, we envision:

- Improved pedagogical skills among Adult and Community Educators.
- Increased engagement and participation of adult and senior learners in educational programs.
- Enhanced civic engagement and community involvement among adults and seniors.
- Development of sustainable and replicable models for innovative adult education.

## Project's Objectives

ATTACH aims to promote active citizenship through adult education, enhancing civic engagement and lifelong learning. Key objectives include researching political engagement in civic education, capacity building for volunteer coordinators, implementing innovative educational methods, and equipping educators with digital literacy skills for effective online campaigning.

## Our Actions

### Political Dimension of Adult Education

In WP2, our focus is on integrating the political dimension into adult and community education. Through research and targeted activities, WP2 aims to customize intellectual outputs, enhance the quality of adult education practices, and test the feasibility of the European Training Strategy Competence Model. This package supports educators in incorporating political aspects into their teaching, fostering lifelong learning and professional growth.

### Training Toolkit for Enhanced Citizenship

WP3 is dedicated to developing a Training Toolkit aimed at enhancing citizenship among adult and senior learners through innovative educational methods. By integrating creative approaches like Photovoice, Educational Animation, Storytelling, and Kahoot! Quizzes, WP3 empowers learners and fosters meaningful civic engagement.

### Toolkit for Social Media Engagement

WP4 focuses on equipping adult educators and learners with skills to effectively use social media for online campaigns on relevant issues. By enhancing social media literacy and promoting engagement, WP4 supports the project's goals of civic engagement and social change.
